DiBuduo & DeFendis Brokers, LLC in partnership with the Paso Robles Wine Country Alliance, is proud to present the 8th Annual Vineyard Safety Boot Camp featuring essential CalOSHA required safety training courses for all vineyard workers.

CLASSES

Tractor/ATV Operator – Train the Trainer

This training will cover the items needed to certify Tractor/ATV operations in the agricultural industry. Trainers will be provided with the necessary materials to train operators from a classroom perspective. In addition, trainers will then take this knowledge and train their operators in the work setting to ensure operators are competent in Tractor/ATV operations via a skill assessment.

CHIPP-Heat Illness Prevention – Supervisor Training

During this training, attendees go over the required materials to conduct the Cal OSHA required supervisor/employee level training. Trainers will be provided with the necessary materials to train employees from a classroom perspective.

First Aid CPR/AED Certification

Cal OSHA requires agricultural supervisors who manage/supervise employees to have current Adult Only First Aid CPR/AED certification. CHIPP also requires that supervisors with First Aid/CPR training be available to assist employees with heat illness symptoms. We will cover basic Adult First Aid and CPR/AED techniques to stabilize an injured worker for first responders. Participants will receive an Adult First Aid/CPR/AED certification card from the American Red Cross that is valid for 2 years.
